## Class Prophecy

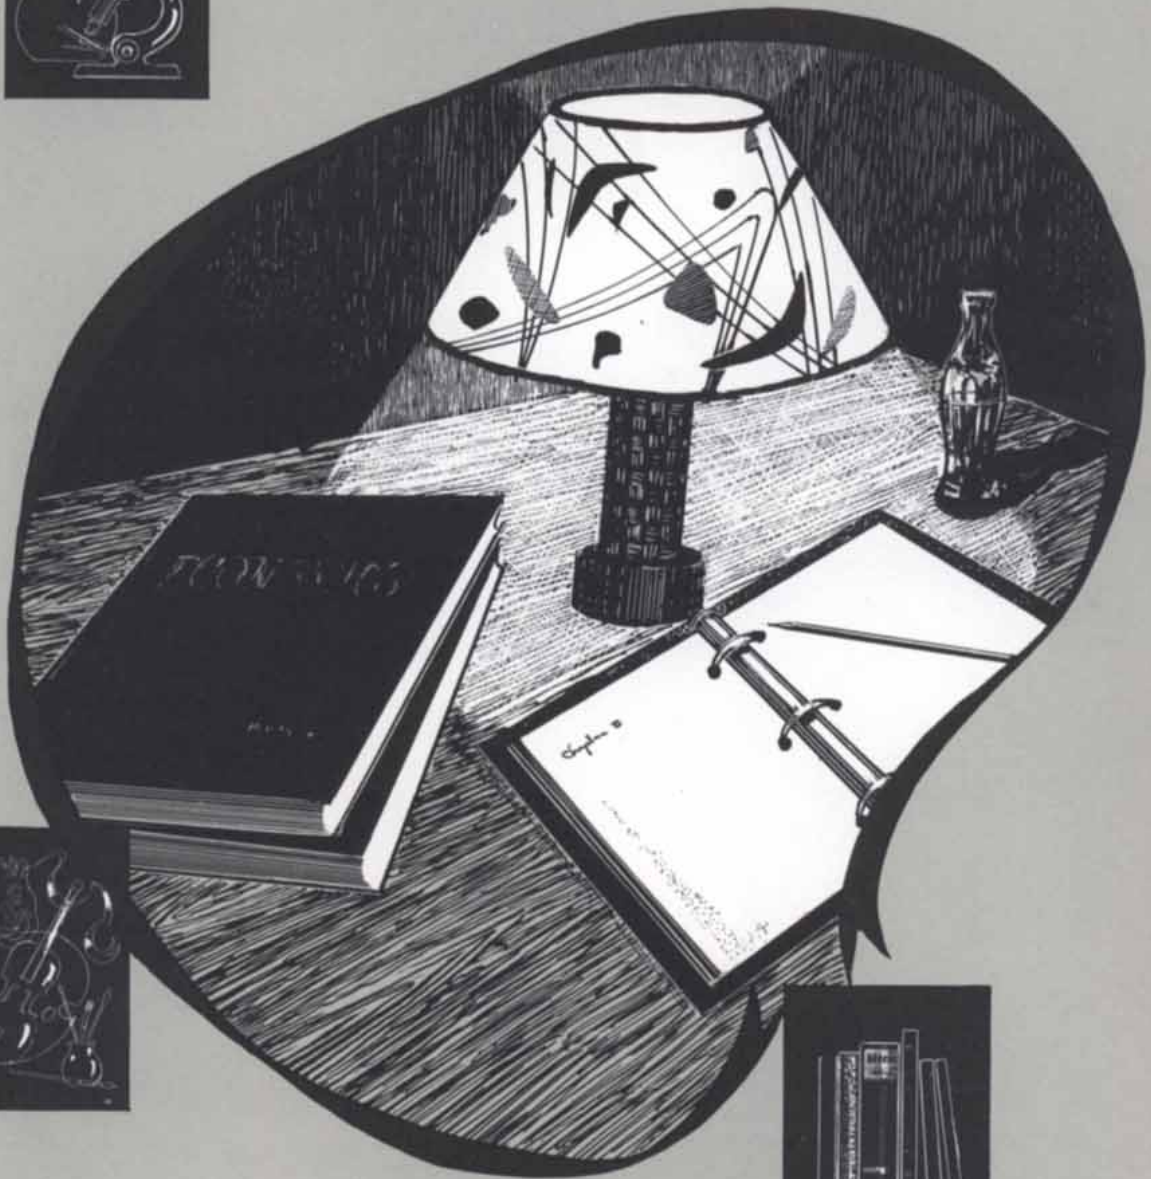

*Lee Browning*  
*Gladys Withrow*  
*Ronald Elliott*  
*Victor Bowers*  
*James Wickersham*  
*David Perry*  
*Myrtle Sibson*

I was making a tour of Alaska in the year 1984 when as I approached the town of Homer I saw a moose and stopped to take a picture. It turned out instead to be Victor Bowers out digging ditches for the B. P. R. The next person I encountered was Lee Browning who was out hunting bare -oops, I mean Bear! I stopped at a large mansion overlooking the Spit to ask directions and the door was opened by Gladys Withrow, who was the maid. She was very glad to see me for she had been having trouble getting rid of a traveling salesman named David Perry. When I finally got to town I saw a bearded Jim Wickersham standing on the corner contemplating getting a shave. I stopped at the local pool hall and who should I find but Ronald Elliott who was behind the 8 - ball as usual. He told me that Myrtle Sibson had finally made the Olympic Skiing Team so that at last somebody from Homer had made a name for themselves.
