# ORGANIZATIONS & SPORTS

As we look back at the various sports and organizations of '72-'73 we return to fond memories of how we worked for the betterment of our school. Each organization, in its own way, striving to bring a better understanding between fellow students and faculty members.

Each sport was done with more and better spirit. Sports held for us everlasting memories of new people we met, exciting competitions we won, and places we go. There were memorable victories, along with our defeats.

You're right!! There's nothing there. Well, this is Alaska and we get used to things like ---" Oh, that film, we forgot to tell you, it didn't turn out." The message coming the day of the paste up, of course! But this group of young people is made up of band and chorus members who love informality.

Gymnastics is growing to be one of the more popular sports as the years go by. The gymnastics team this year is made up of twelve girls and without the many dedicated hours of Mr. and Mrs. Bill Johnson this vastly growing sport would not be possible. This sport is recognized by the younger age group, which if they start now, Homer High School will continue to have gymnastics champions in the near future.

# Class B State Champions 1971-1972

Nan Rehder, Sr. Capt., Kelly Haynes, Soph. Maria Stewart, Jr. Debbie Henwood, Jr. Zaneta Drozdowski, Sr.

For the first time in our existence, we brought home the coveted "Class B Best Cheerleader's" trophy. As things now stand, it may be for the first and last time, since W. D.A.H. S.A.A. has withdrawn its support.

We have over the past three years gained a reputation for our discipline and teamwork and it really paid off.

# CLASSES

Looking back our Memories show us where we first began. It is a long climb to the top. Some haven't yet made it and the Seniors are finally there. Now they look back at others making the same long trek that they have made. There are memories of Jr. High days and how you looked forward to going to dances and putting on other activities. There are memories of Sadie Hawkins dances, Sweetheart's Balls, Jr. Sr. Prom and Banquets, Christmas Balls, and many other dances and activities. And the work that went with doing all of these things.

# electricity

Electricity performs many tasks to provide cleanliness and comfort. Electric heating, air conditioning, humidifiers and de-humidifiers enable you to live in a cleaner more comfortable indoor environment. A variety of air cleaning devices, such as filters in heating and air cleaning systems and electronic air cleaners, remove smoke, dirt, pollen and other impurities from the air you breathe.

# builds a better

In the future, electric automobiles and electrified rapid transit systems can remove much of the pollution now created by internal combustion engines. Electric energy will be increasingly used to dispose of waste, re-cycle waste, remove salt from sea water and treat sewage. All of these present and future electrical devices will increase your need for electric power.

# environment!

Even if all future power comes from fuel combustion plants, the by-products of this combustion can be removed more efficiently at modern, central stations than at the hundreds of individual locations where energy is needed. Improved air scrubbers, precipitators and other anti-pollution devices promise even greater future air cleanliness.

- Clean electricity will increasingly be an aid to a better environment.

Americanism means the virtue of courage, honor, justice, truth, sincerity, and hardihood—the virtues that made America. The things that will destroy America are prosperity at any price, peace at any price, safety first instead of duty first, the love of soft living and the get-rich-quick theory of life.

Theodore Roosevelt
